Thanks, I'll let Adam Sachs know that EPA work activities are scheduled to begin next Monday, October 17th.

It would be nice to share the fact sheet in English and Spanish underway as well as the EPA contacts list with offices before the commencement of cleanup work. Are those expected to be completed by next Monday to share with the various offices who

participated in our call?

I think there was a typo. Jason means 10/17/16.

Thanks!

This week we are conducting community outreach and receiving equipment/materials at the site. Work activities are scheduled to begin next week, 11/17/16, and will start with installation of a debris barrier along the property border with the residential neighborhood.

Please see note below from Adam Sachs in Congresswoman Roybal-Allard's office. I know we have not yet begun work, but wanted to see if you have an idea of when we will mobilize so I can let Adam know. Thanks.

Subject: Checking in Re: Fruitland Magnesium Fire Site

Hi Brent,

I hope you are doing well. I wanted to check in with you to see if the EPA has begun the cleanup of the Fruitland Magnesium Fire Site. I remember the target date is today, October 11th, so I just wanted to check in. Also, you mentioned during the conference call that the state will likely be involved in the cleanup. Is CalRecycle or CalEPA involved with the cleanup at this point?

Any updates would be greatly appreciated.

All the best,

Adam Sachs | Legislative Assistant
